FREE 25 Dataset sources

1. [Kaggle](): A popular platform for data scientists and machine learning practitioners, Kaggle offers a wide range of free datasets contributed by the community.

2. [UC Irvine Machine Learning Repository](): A comprehensive repository containing various free datasets suitable for machine learning research. It covers domains like classification, regression, and clustering.

3. [Google Dataset Search](): Google Dataset Search is a search engine specifically designed to help you find datasets from various sources across the web.

4. [Data.gov](): The official U.S. government website dedicated to providing open and accessible free datasets from federal agencies.

5. [World Bank Open Data](): A vast collection of free datasets from the World Bank, covering a wide range of topics related to global development.

6. [UNICEF Data](): UNICEF Data offers datasets on child well-being, education, health, and other important social indicators.

7. [Amazon Web Services (AWS) Public Datasets](): AWS provides a collection of public datasets that can be accessed for free, covering domains like biology, climate, and economics.

8. [Google Cloud Public Datasets](): Google Cloud Public Datasets offer a variety of datasets, including genomics, environmental, and public health data.

9. [DataHub](): DataHub is a platform that hosts a wide range of free datasets, including social, economic, and scientific data.

10. [Data.world](): Data.world is a community-driven platform where users can discover, share, and collaborate on free datasets.

11. [FiveThirtyEight](): FiveThirtyEight provides datasets related to politics, sports, economics, and more. Their datasets are often used for data-driven journalism.

12. [OpenML](): OpenML is an open science platform that allows users to share datasets and machine learning experiments.

13. [GitHub](): GitHub hosts numerous repositories containing datasets shared by individuals, organizations, and research institutions.

14. [U.S. Census Bureau](): The U.S. Census Bureau offers various datasets that provide demographic, economic, and geographic information.

15. [European Union Open Data Portal](): The European Union Open Data Portal provides access to datasets from EU institutions and member states, covering various domains.

16. [Quandl](): Quandl is a platform that hosts financial, economic, and alternative datasets suitable for quantitative analysis.

17. [Data.gov.uk](): The UK government's official data portal, offering a wide range of open datasets.

18. [Statista](): Statista provides statistical data and charts on various topics, including industries, countries, and consumer behavior.

19. [Reddit Datasets](): The Reddit community r/datasets is a valuable resource for finding and sharing datasets on a wide range of topics.

20. [U.S. Bureau of Labor Statistics](): The U.S. Bureau of Labor Statistics offers datasets related to employment, inflation, wages, and more.

21. [Data.gov.au](): The Australian government's open data portal, providing access to diverse datasets on various subjects.

22. [NASA Open Data](): NASA Open Data offers datasets related to space exploration, satellite imagery, and climate research.

23. [Data.gov.sg](): The Singapore government's data portal, offering datasets on topics like demographics, transportation, and health.

24. [Open Data Network](): The Open Data Network allows you to explore and access datasets from multiple cities and organizations worldwide.

25. [Data.gov.hk](): The Hong Kong government's data portal, providing datasets on different aspects of the city.
